

# Electronic Payments Integration

## Driving financial and supply chain performance

### Accounts Payables GO GREEN!

**Reduce processing costs, create a new revenue stream, and help save the planet.** Implementing an electronic payments solution, such as Bank of America ePayables, helps you virtually eliminate paper checks, reduce bank fees and processing costs. This innovative solution allows you to pay your vendors immediately, pay Bank of America (BOA) monthly, and receive a rebate on payments processed by BOA. The solution integrates card payments into your accounts payable process, and also enables you to expand commercial card programs by automating, streamlining and integrating your existing payment authorization and reconciliation process with card management and control capabilities.

#### Electronic Payment Benefits Include:

- A GREEN initiative with a positive ROI
- New revenue stream created from bank processing rebates
- Pay vendors immediately with minimal cash flow impact and capitalize on vendor prompt payment discounts
- Improved productivity with up to 50% less PO and invoice matching
- Minimal procedural changes and better spend controls
- Higher order to receipt turnaround rate.

**DDR Technologies provides the consulting services necessary to connect Pathways Financial Management (PFM) with the Bank of America ePayables/Works™ solution. DDR ePayables implementation experience and PFM expertise helps ensure a quick, efficient and successful implementation.** Leveraging our deep healthcare and technical expertise and strategic relationships with McKesson, DDR provides end-to-end services focused on Pathways reporting, education, implementation, rollout, optimization, conversion, upgrades and custom development.

#### Results only experience can deliver.

DDR consultants are experts at identifying, measuring, and maximizing the success of your healthcare ERP project, and are well equipped to respond to your most complex technical and business challenges. On average, each DDR consultant possesses more than 10 years of consulting experience. Several are recognized as leading healthcare ERP systems experts, having worked with McKesson Pathways and predecessor solutions for more than 10 years.

### The DDR Difference

Partnering with DDR allows you to:

- Fully realize the potential of your ERP applications
- Control project costs and reduce risk
- Identify and implement business process improvements
- Leverage ERP functionality to optimize business operations
- Better manage organizational change, training and communications
- Align job role organizational structures with the ERP environment
- Measure business results and implement corrective action when required.
